

**"I ran two programs simultaneously for a number of years because no individual program "did it all".  
EarMaster has finally solved that problem."**

Dr. David Erhke, Professor of Music, University of Nevada, Reno, USA

## Become a better musician!

Music is all about hearing.

Having good aural skills is a fundamental aspect of being a good musician and it is essential to understanding the music you hear and play. Ear training will help you to:

- ▶ Play in a band with more confidence!
- ▶ Pick up tunes from the songs you like!
- ▶ Connect sound with theory!
- ▶ Maximize your musicianship!

With EarMaster, you will learn to identify, transcribe and play intervals, chords, chord inversions and progressions, scales, modes, rhythms and melodies with the progressive EarMaster tutor lessons, or use the customized mode to train according to your own needs!

## EarMaster is the ideal tool to train your aural skills and practice music theory

EarMaster is fully interactive and will give you instant feedback on everything you do. It is fun and easy to use, and it will make ear training and music theory exciting and stimulating!

EarMaster was developed for all musicians, playing of any type of instrument, from beginner level to very advanced.

Start becoming a better musician today with EarMaster!

## Interactivity

Answer the questions using:

On-screen interfaces:  
Staff, Multiple-choice, Piano, Guitar, Violin, Bass, Cello, or any other stringed instrument!

- Follow your progress with the Detailed Statistics.
- Contextual help available everywhere in the program.
- 21 languages included (see p. 4 for details)

**“Ear training makes you a better musician - one hour spent on ear training is two hours saved on practising your instrument.”**

Peter Vuust, Ph.d, jazz-musician, composer and brain researcher

Windows & Mac

## Ear Training

Ear training is the process of connecting theory (notes, intervals, chords, etc) with music (the sounds we hear). The more you will exercise to recognize this connection, the more you will appreciate playing music, because you will learn to understand what you play.
